BIG CUT

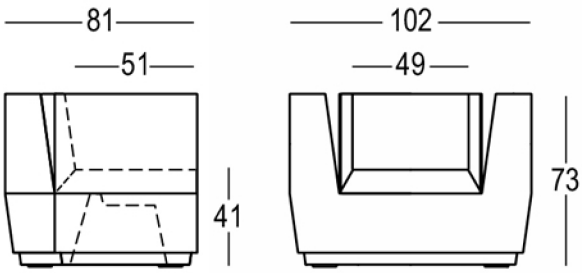
PRODUCT STORY

A modular suite that includes a corner, table, ottoman and luminous lighting. The comfortable armchair representing the main element of the "Big Cut" system, its soft cushion makes it perfect both for outdoor and indoor use. The "V cut" is the common denominator of all the elements of the system, which creates a cosy yet functional space, ideal for dynamic contract furniture settings.



OPTIONS

Please refer to specification sheet for module sizes and cloth finishes to accompany. Lighting kits available
