

ILLUSION
FAMILY

PRODUCT STORY

The Illusion has an ABS plastic moulded shell and upholstered inserts leaving the back and sides exposed. The seat is supported by a 4 Leg base that can be powder coated or chromed. The ABS shell conforms to the shape of the body while being embraced by comfortable 2 piece foam padding on both the seat and back. The shell sides are exposed to accentuate the design. The illusion of the chair leaning forward is corrected by a very comfortable seating position. The abundance of the moulded foam seat provides a "Max" comfort rating for longer seating periods.

**OPTIONS**

The seat is supported by a 4 Leg base that can be powder coated or chromed. The ABS shell conforms to the shape of the body while being embraced by comfortable 2 piece foam padding on both the seat and back.
