

NOBLE
FAMILY

PRODUCT STORY

A favourite in the collection. Noble was originally designed for an up market restaurant in Japan and now makes its way into the collection as a versatile and well crafted chair. Varying base options gives plenty of scope for the Noble chair.

In house and COM available for this collection

OPTIONS

4 legged, sled, 4 star and 5 star on castors. Powder coated option to specification

In house and COM available for this collection

DIMENSIONS
