## PRODUCT STORY

Pedi stool originally designed by Sezen Kaya for children's rooms. However, after been exposed in B&T Design catalogues started getting ordered for office break-out rooms and also hotel rooms. Since therefore, B&T Design started manufacturing this stool for adult use. With modern minimal design language Pedi is a product used to support the colour balance of the living room with sofas in a house. It's a great alternative for any conventional ottoman. Thanks to its minimal design, can easily be matched and compliment any style armchair. The Pedi with its swing boat shape and tapered bottom part it looks and feels comfortable. Made out of hardwood structure and padded with commercial grade HR foam. Pedi can be ordered in any standard B&T Design fabric, leather or eco-leather.
