

ELLSBURY  
FAMILY

## PRODUCT STORY

The ELLSBURY captures the warmth and feel of a timber chair whilst at the same time satisfying the demands and rigors expected from hospitality and health care sectors, the Ellsbury is as tough as it is elegant! Only after a second glance one comes to realise the natural timber finish perfectly disguises the durable lightweight aluminium frame finished in a fine wood grain coating. While not in use the Ellsbury chair stacks 5 high and comes upholstered in a range of standard fabrics or you can choose from local or international to suit.
