NOVOX

FAMILY

PRODUCT STORY

When there are so few genuinely suited folding chair options, the NOVOX has a surprising comfort level for a chair that doesn't have a foam cushion. The seat and back have been designed to hug the users under carriage and back allowing them to enjoy the event without being distracted. It is simple to set up and move from place to place in a purpose build high volume cart. The ideal wedding chair in white, the black variant opens options for uses in community halls, school, churches, and multiuser gathering places.
