

PEGUS
FAMILY

PRODUCT STORY

The PEGUS chair has a rich design with curved lines that immediately attract the eye. The mesh option provides a high degree of comfort over long periods and the 3 dimensional elasticity creates significant air flow in all temperatures. The Flex Back of the PEGUS chair will ensure that every body is well seated. Fabric can replace mesh to suit a different aesthetic.

PEGUS is where design and functionality meet - in meeting rooms, classrooms, conference spaces and boardrooms.
